

Distribution
and Fulfillment
Operations

As a result of the ETi Smart Systems Solutions™ Sports Warehouse is now running a highly efficient eCommerce fulfillment center with improved accuracy and shipping times.

PROJECT OBJECTIVES:

Design new distribution center for the Sports Warehouse East Coast location

- Maximize storage availability
- Improve picking and put away efficiencies
- Increase order accuracy
- Add inventory tracking
- Achieve faster shipping times
- WCS to interface with existing WMS

KEY FINDINGS FROM ETi ON SITE ASSESSMENT AT SPORTS WAREHOUSE:

- Determined there was room to expand vertically to maximize existing space
- Existing platform did not have enough headroom space to expand

SMART SYSTEMS SOLUTIONS FOR SPORTS WAREHOUSE:

- Provided a Design Build approach
- Designed an efficient conveyor layout for put away and shipping
- Implemented a new WCS
- Implemented real-time data management for reporting and tracking
- Built vertical pallet racking storage within limited available space
- Provided future expansion options for 2nd floor platform

SYSTEM INSTALLATION & IMPLEMENTATION:

- 9 month implementation time while remaining operational

SPORTS WAREHOUSE DETAILS:

- Business Category: Sports equipment distribution
- Location: Alpharetta, GA
- Website: www.tennis-warehouse.com
